A WELL MERITER TRIPUTE. The death of the late Prof. ALEXANDER GAMBATI, which occurred about two weeks ago in this city, has deprived our community of another of its oldest members-one no less esteemed for his urbane manners and many noble qualities than distinguished for his been done to increase, if possible, her already musical talents, in which profession he deservedly ranked among the first. His friends will have a requiem high mass, or funeral service, celebrated te-morrow morning, at 9 o'clock, at St. Paul's Church, in Society street. On this occasion, the Choir, of which the lamented deceased was for a long time the efficient director, will be assisted by many of the former pupils and musical friends of the much regretted Professor in paying an appropriate tribute to his memory.

Young Ladies' Collegiate Institute. - A pleas ing proof of our literary advancement is the numper of educational institutions that have been organized since the war. Among these, few offer better facilities than the Collegiate Institute conducted by the Rev. HENRY M. MOOD. Mr. Mood has a large experience in the art of teaching, having It is to be placed on Messrs, Wilder & Fullerfilled, with great ability, the Presidential Chair at Davenport, and the Columbia Female Colleges. He was invited by the Board of Commissioners to preside over the State Normal School, which was reestablished last year, but subsequent changes induced the Commissioners to use the building as a free school, and Mr. Mood lift two thousand pounds at once from the lower the Young Ladies' Collegiate Institute in the large building on the north side of George street, one door west of King. It has been the wish of the Principal to make his school thorough petent corps of instructors. Many of those gentlemen are now connected with other instituons of learning, and bring to their omployment minds stored with knowledge which they have the happy art of imparting. Mr. Mood's advertisement appears in another column, and we direct the attention of the young ladies interested in procuring a good education, to the terms and other information contained therein.

THE STREETS IN THE UPPER WARDS. - Years ago Commissioners of Public Roads had the exclusive inrisdiction of this section and it was to many rsons a terra incognita to be avoided on account of the malarious neck fever which seized all who were not acclimated. Since the annexation to the city a great change has been effected. Rutledge Avenue and the streets in the north vestern porion of the city have now become fashionable thoroughfares, and the neck fever is considered a bugbear. The Street Inspector has recently given his attention to the condition of the streets in this section. They have been supplied with wooden curbing, and the grass that had choked the gutters removed; fresh earth has been placed on the time. By the blessing of God the plague has been sidewalks and holes filled up, but the late rains have in many instances rendered these improve- acknowledge his protecting care by aiding those ments useless, and the streets are almost the same as when the work was first commenced. Few of the President of the Pensacola Benevolent Associthe sidewalks in the Upper Wards can boast a ation will be devoted to the relief of the sick, and pavement, and during wet weather the earth is a to further the good cause, we have opened a list ery poor substitute. The present poverty of the city prevents any heavy outlay, but the money ex- | the amounts received. pended on the streets will ultimately prove a beneficial investment.

the condition of the streets. Low lands are filled die for the want of the comforts and attention up and morasses converted into valuable property. Some years since the City Council of Boston staked off what was at the time a portion of the Bay; this was filled up, and in ten years became city, and by the sale of the property millions were realized. It would be folly to compare the facilities of Boston to those of this city, but a judicious outlay of labor would in time make Charleston equal to any of her sister cities. The growth of a city situated like Charleston must be upward, and improvements made on the Neck at this time will, in the future, materially advance the price of real estate, and aid in restoring the treasury to a

THE LOW LOTS OF THE CITY. The condition of a number of the low lots in the city has been brought to the attention of the Board of Health, and that body has decided that they demand immediate attention. At the last meeting of Council a number of lots were specified in the Upper Wards and in the western portion of the city, but the absence of a money quorum prevented Conneil from making any appropriations for the purpose. The subject was discussed in its different bearings, and a reselution was finally adopted authorizing the City Civil Engineer to advertise for proposals to do the necessary work. This was immediately done, and ruling, go to himam Harris, No. 59 Broad street the advertisement should have appeared in yesterday's issue, but was inadvertently mislaid.

Under the supervision of Mr. BARBOT these low lots will be soon changed, by ditching and drainof Health have long been an eyesore and a mis be a public benefit. The city has been placed under thorough sa. itary regulations, and every sec tion is subjected to a critical examination by the Board of Health. They are assisted in this work by the military medical director, and it is seldom that any nuisance escapes ther attention.

In addition to the localities mentioned in the report to Conneil, there are in the Upper Wards a until this section of the city is subjected to a care will continue to be unhealthy. The absence of a money quorum, prevented Council from making the necessary appropriations to drain these lots. but we trust that this will not interfere with the Five copies one year progress of the work. The city civil engineer has One Square, ten lines or less, first insertion.

be called upon to foot the bills.

JUVENILE THIEF .-- Charles Jenkins, a colored say of ten years of age has been arrested and lodged in jail for stealing clothes from the store of Mr. Monnis Ishaul. The clothes have been re-

STEALING A SAIL. Wm. Sanders, colored, went out shrimping recently but not being satisfied with his success in that humble occupation, he stole a sail from a boat which he passed on his return. The sail has been recovered, and Sanders is

More Straing.-Three negroes, Henry Douglas Henry Townsend, and John Kirk, on Friday night last stole a horse and mule from Captain W. J. KIRK, of Bluffton. Captain KIRK followed Thinking that they would come to Charleston to spose of the animals, he came at once to the ay, and lodged information at the detective office. As a natural consequence the horse and mule have been recovered, and the thieves arrest-

AT THE ANNIVERSARY MEETING of the Calhoun Library Association, held at their Library Room, Wentworth street, last evening, the following officers were elected to serve for the onsuing

J. C. LACOSTE, President.
J. L. PAVIDSON, Vice-President.
GEO. McLAIN, Secretary.
W. H. MORRIS, Treasurer.
J. C. RIPLEY, Librarian

The following committees were appointed: On Letters-J. L. Davidson, James F. Welsh and J. C. tables, On Finance—W. C. Brown, A. White and J. Gilbreth, On Library and Reading Room—Geo, McLam, H. Neu-ent and W. H. Morris.

COUNTERFEIT HALF DOLLARS .- Counterfeit half dollar currency, of the old style, with the head of Washington in the centre, have been recently offered in several stores in King street, and also on the street cars. This fact was brought to the succeeded in arresting the following persons, who have, by order of the Provost Marshal, been committed to jail to await their trial for passing counterfeit money : Eliza Nunnery, colored; Medora Dezvigne, colored, and WM. KEENAN, white.

Medora Dezvigne, in her anxiety to escape detection, endeavored to chew up \$6,50, but the more she chewed the harder it was to swallow, and the curious motion of her mouth attracted an attention from the detectives which proved fatal to the success of her attempt.

THE STEAMER DICTATOR.—CONNECTION WITH FLORIDA. - The first-class steamer Dictator, Captain L. M. COXETTER, it will be noticed by our advertising columns, returns to her position on the Florida route, by leaving this port on Tuesday next for Palatka, touching at Jacksonville, Fernandina and Savannah. The Dictator, under command of her long experienced and well-tried Captain, hardly needs a notice from the press to increase the reputation of either the boat or commander The capacity of both to nacet the wants of the traveiling public are widely known and deservedly held in the highest repute. The Dictator has lately been thoroughly refitted and renewed by the best mechanics in the country, and everything has enviable reputation. The trade of Florida is large and growing, and her planters and business men feel an earnest desire to patronize our city, and such facilities of intercourse as this superior steamer affords will tend strengly to assist this most desirable branch of trade. It becomes our merchants and citizens to patronize the Dictator and her widely-known Commander to the fullest extent. Her agents are the same as last season, Messrs, J. D. AIKEN & Co., office South Atlantic Wharves, where all information can be obtained.

SAVANNAR OBTAINS A STEAM HOISTING MACHING. The Republican exultingly states that, "among the freight brought by the steamship General Barnes, from New York, was one of the finest steam hoisting machines that we have yet seen in this city. TON's wharf and will be used for the purpose of loading and unloading the vessels of the Atlantic Mail Steamship Company's line. The machine is constructed upon a principle combining great power of hoisting with simplicity of construction. It cost upward of five thousand dollars. It can power now in use will be discontinued when the steam apparatus gets to work."

Steam hoisting machines have been in use in this city for some time on the New York steamin every respect, and he has secured the services ships Manhadan and Champion. These are of simple construction and very efficient, being fully capable of hoisting over 2000 pounds. The most improved patterns we have seen were on board of packet ships from England, available for all purposes of hoisting, and costing about £110 sterling. What should make this Savannah machine cost \$5000 we are curious to know.

The difference in expense as between stean and horse or mule power is stated to be very much in favor of the former; but somehow it seems to be considered, in many instances, just the thing when the Neck was but a suburb of the city, the to pay \$10 per day for a pair of horses, when \$2 would pay for raising a "steamer."

> THE YELLOW FEVER IN PENSACOLA.-We have been permitted to make some extracts from a letter of a young Charlestonian, now a resident of Pensacola, to his brother in this city. The fell hand of disease has fallen heavily upon Pensacola, and the people though willing, have from their poverty been able to do little to avert the calamity. A strong appeal is made to the benevolent of this city to give their mite in aid of suffering humanity. Charleston has too sad an experience of the horrors of this fever to stand aloof at this turned from our doors, and we should gratefully who are now suffering. All contributions sent to at our office, and will take pleasure in iorwarding

> PENSACOLA, FLORIDA, September 4, 1867. Disease has fallen upon our city, and there are many, both citizens, strangers and sailors, who that are necessary for them to have. We have formed a society for the purpose of nursing and earing for the sick, and have procured a large

> The object of this letter is to solicit aid, in a pecuniary point of view, for the purpose of relieving our poor fellow-citizens from suffering. Our people here have been called upon so often that they can do no more. I think a communication, through one of your papers, calling upon your benevolent societies, and also upon the citizens, world meet with success. Mobile has aided us by sending us a thousand dollars, but the demand on us is so great, and our people so destitute, that it will only go a short way to feed the hungry and attend to the sick. Common humanity calls on you to respond, and I trust that the good old city will not be behind hand.

NEWELS, HAND RAIL, What is TARRANT'S EFFERVESCENT SELTZER APERIENT, and what are its effects? These are que tions which the great American public has a right to ask, and it also has a right to expect a candid and satisfactory reply. The preparation is a mild and gentle saline cathartic, alterative and tonic, and is most carefully prepared in the form of a snow white powder, con-

taining all the wonderful medical properties of the farfamed Seltzer Springs of Germany. Of its effects we would say that those who have tested he preparation are the best judges, and they declare over their own signatures that the preparation will promptly relieve indigestion. Regulate the flow of the bile. Cure every species of headache. Tranquilize the nervous system. Refresh and invigorate the weak. Miti-gate the pangs of Rheumatism. Neutralize acid in the stomach. Cleanse and tone the bowels. Assist the

falling appetite. Cure the heartburn. If you are a sufferer give this Remedy one trial, and it will convince you of the above facts. TARRANT & CO., Sole Proprietors, New York. Sold by all Druggists. 3mos September 12

HORSE POWER MANUFACTURED. In introducing this new Power into the market, we would state that the following are some of the advan-tages possessed by the "LITTLE GIANT" over all other Iorse powers:
1. Its great strength on account of being double-geared. its great strength on account of being double-geared which not only doubles the strength by driding the strain on twice the number of teeth, but by gearing of both sides of the wheels it equalizes the wear on the shafts, and materially lessens the riction, enabling the horses to do much more work than with any other Power.

2. Its compactness and extreme portability, it weighing about one-half as much as other Horse Powers, and occupying but one-third the space, it can be packed in small boxes, thus saving much expense. It is so simple that the most fgnerant person would have no difficulty in putting it together.

3. The facility with which it can be adjusted to any kind of machinery at any angle, either on the ground or We request all to give us a call at our Store

LERICAN LEAD PENCIL."

SHEFFIELD SCIENTIFIC SCHOOL, SHEFFIELD SCIENTIFIC SCHOOL,

ROGINEERING DEPARTMENT,

YALE COLLEGE, November 16, 1866.

I have always recommended the Faber Polygrade
food Pencils as the only pencils fitted for both ornameninl and mathematical drawing; but, after a thorough
trial of the American Polygrade Lead-Pencils, maninactured by the American Lead Pencil Company, New
York, I find them superior to sup pencil in use, even to
the Faber or the old English Cumberland Lead Pencil
being a superior pencil for sketching, ornamental and
mechanical drawing, and all the ordinary uses of a lead
pencil.

pencil.

These pencils are very finely graded and have a very smooth lead; even the softest pencils hold the point well; they are all that can be desired in a pencil. It gives me great pleasure to be able to assure Americans that they will no longer be compelled to depend upon Germany or any other foreign market for pencils.

LOUIS BAIL. Professor of Dry ving, &c.

ALL PENCILS ARE STAMPED:
"AMERICAN LEAD PENCIL CO. N. Y."
None genuine without tae exact name of the firm pok to it.

THE PLANS FOR BUSINESS FOR THIS INSTITUTION are very liberal and attractive to those who wish
to insure their lives in a FIRST CLASS COMPANY. Its
business is very large and rapidly increasing. All the
various kinds of policies are insured on as favorable
terms as are offered in any other good Company in the
country. DIVIDENDS increase with the age of the
Policy. Non-participating rates are lower than those of
any Company in the world. Losses paid in thirty days
after due notice and proof of death. Liberal arrangements made in regard to travel. One-third of the amount
of premium will be loan-st the policy-holder if desired.
